

Self-service laundry

by **instaquim**

Understanding the importance of disinfection and removal of stains and residues from fabrics and working hard to be able to offer the best hygienic solutions for self-service laundries.

We are aware that the needs may vary and are not the same for each user, that is why our procedures are adapted to meet the needs in a specific, efficient and professional manner. Working jointly to help you obtain the best solutions with the highest possible quality and with a clear commitment, to ensure that you obtain the best results.

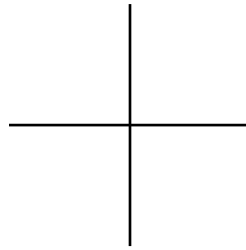

Our range of products has been designed and developed bearing in mind our main objective, to ensure the cleanliness and disinfection of fabrics.

Biogold

Producto desinfectante enzimático concentrado especialmente indicado para lavanderías auto servicio con dos dosificadores. Su formulación concentrada con aminas terciarias y enzimas lo hace especialmente efectivo para la desinfección en lavados cortos a bajas temperaturas.

Concentrated enzymatic disinfectant product especially suitable for self-service laundries. Its concentrated formulation with enzymes makes it very effective in short washing cycles at low temperatures

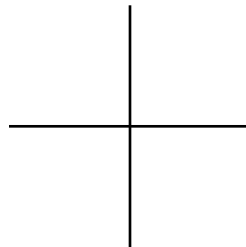

Bluegold

Concentrated enzymatic product especially suitable for self-service laundries. Its concentrated formulation with enzymes makes it very effective in short washing cycles at low temperatures, offering excellent results in this conditions. The combination with the fabric softener Blue Soft creates a synergy that guarantees a lasting perfume after washing.

Blue Soft

Highly perfumed softener with microcapsules of fragrance. Provides softness making ironing easier, while leaving a fresh and intense perfume on the clothes. Thanks to its content in microcapsules, the clothing keeps the perfume for a longer time.

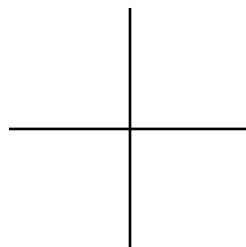

Rosegold

Concentrated enzymatic product especially suitable for self-service laundries. Its concentrated formulation with enzymes makes it very effective in short washing cycles at low temperatures, offering excellent results in this conditions. The combination with the fabric softener Suau + creates a synergy that guarantees a lasting perfume after washing.

Suau +

Concentrated fabric softener, prevents the formation of static electricity and facilitates ironing, leaving a pleasant fragrance in the clothes.

Tropicgold

Concentrated enzymatic product especially suitable for self-service laundries. Its concentrated formulation with enzymes makes it very effective in short washing cycles at low temperatures, offering excellent results in this conditions. The combination with the fabric softener Suau Actif creates a synergy that guarantees a lasting perfume after washing.

Suau Actif

New generation fabric softener with micro-capsule technology. These fragrance particles stick to the clothing and are broken by friction, releasing all the fragrance. Therefore, with the use of the clothes previously washed with this softener its pleasant smell is maximized. Prevents the formation of static electricity and facilitates ironing.
