Algiquat Basic

Quaternary ammonium algicide at 7% for professional pools

DESCRIPTION

Professional algicide for swimming pool water. Its formulation makes it especially useful in pools where continuous chlorination is difficult, although it is perfectly compatible with traditional treatments.

INITIAL TREATMENT

With the pool basin empty and clean, apply the product undiluted onto the surfaces of the basin. Leave the product in contact until it dries and then fill the pool.

MAINTENANCE TREATMENT

Add, preferably by means of a dosing pump, 3 L of product daily per 100 m³ of water to be treated. This dose is indicative and may vary depending on the quality of the water.

TECHNICAL DATA

Appearance	Transparent blue liquid.
pH	7.0 +/- 0.5

MAIN COMPONENTS

Contains N,N-dimethyl-2-hydroxypropylammonium chloride polymer, approx. 7%.

PRESENTATION

25 kg.

PRECAUTIONS FOR USE OR HANDLING

WARNING

	DO NOT INGEST
H410	Very toxic to aquatic life with long lasting effects.
P102	Keep out of reach of children.
P273-P391-P501	Avoid release to the environment. Collect spillage. Dispose of contents/container in accordance with local regulations.
	Do not mix with other chemical products.

Consult the Safety Data Sheet (SDS) before using the product.
