Condnipple A

Protection and conditioning for post-milking care.

DESCRIPTION

Product designed for teat care in animals after milking. It is the perfect complement for use in conjunction with Condnipple B, as together they form a protective layer that prevents microbial contamination and conditions the skin to avoid irritation.

The formula is made up of high quality ingredients, which work together to maintain nipple health. These components help to soothe and protect the skin, reducing the risk of injury and infection in animals.

The recommended dosage is 50 ml of Condnipple B for every litre of Condnipple A. Before milking, teats should be cleaned to remove any dirt or product. Immediately after milking, the product should be applied to the teats using a teat cup applicator, ensuring that the teats are completely covered. Do not blot with a cloth, but allow to air dry to allow the skin to absorb the beneficial ingredients.

Store in a cool, dry place, protected from sunlight and frost to maintain its effectiveness. It is packaged in 20 kg packages and makes it suitable for use in a variety of applications.

This product is especially useful for the dairy industry and animal husbandry. Its unique formula is effective in preventing infections and skin lesions in animals, which contributes to a healthier and more profitable environment for dairy production. In addition, the ease of use and efficacy make it a must-have product for any dairy farm or dairy production facility.

DOSAGE AND USE INSTRUCTIONS

Add and mix 50 ml of CONDNIPPLE B for each liter of CONDNIPPLE A in a well-ventilated area. Before milking, clean the nipples to remove the remains of products and dirt. Immediately after milking, apply the product to the nipples using an applicator cup. Let it dry, do not dry with a cloth.

TECHNICAL DATA

Appearance Blue liquid.

pH 2.5 +/- 0.5

MAIN COMPONENTS

Contains lactic acid, glycerin and emollients.

PRESENTATION

20 kg.

USE OR HANDLING PRECAUTIONS

WARNING

DO NOT SWALLOW

H319 Causes serious eye irritation.
