Derbel pasta

Hand washing paste

DESCRIPTION

It is a detergent paste specially designed for cleaning heavily greasy hands. This paste is ideal for those workers who have to deal with grease, oil and carbon in their daily work, such as mechanics, plumbers, or construction workers.

The formula is highly effective in removing the most stubborn dirt, allowing for thorough hand cleaning. Thanks to its solvents, this paste is able to remove the most stubborn dirt, even carbon, without damaging the skin.

It is used pure for maximum effectiveness, and its application is very simple. Just apply a small amount of the paste to your hands, rub for a few seconds, then rinse with warm water.

Its neutral pH is skin-friendly, making it ideal for people with sensitive skin. In addition, its formula includes moisturising ingredients such as glycerin, which help to keep skin hydrated and soft after use.

The appearance is in paste form, which makes it easy to apply and use. The presentation of this product is available in one 11-litre recipient or four 5-litre recipients, which allows for greater flexibility in terms of the amount of product needed.

DOSAGE AND USE INSTRUCTIONS

It is ready to use.

TECHNICAL DATA

Appearance Paste.

pH 7 +/- 1

MAIN COMPONENTS
