Desgrasol MO

Emulsifying degreaser

DESCRIPTION

Energetic industrial degreaser for removing burnt oils and any other dirt usually found in motors and machinery. Suitable for cleaning engines, machines, gears, gearboxes, industrial space, etc. Thanks to its excellent adhesion to the surfaces, DESGRASOL MO penetrates in the grease dirt and oil and makes easier the cleaning of vertical surfaces.

DOSAGE AND USE INSTRUCTIONS

Mix the product with water previously, at a ratio of 1:4. Shake well and apply onto the motor or surface to be cleaned. Spraying the emulsion produces a consistent foam which sticks to the treated elements, especially on vertical surfaces, increasing the performance of the product compared to traditional products. Leave it for 5-10 minutes and rinse with water under pressure.
