DV 50

Detergent for cleaning engines, metals and washable surfaces in workshops and industry.

DESCRIPTION

It is a highly effective detergent for cleaning engines, metal parts, floors and washable surfaces in workshops and industries. This powerful detergent is also ideal for cleaning heavily soiled vehicles, trucks, coaches and tankers, as well as any kind of plastic material, such as awnings and sails.

Its solvent-free formula does not contain solvents and does not attack aluminium, making it very safe for use on a variety of surfaces and materials. This detergent is especially useful in machine shops and industries that need an effective solution for the removal of dirt and grease.

It can be used with high pressure machines, which makes it easy to apply. Application rates range from 10 to 50 g/l for light soiling and from 50% to pure for heavy soiling and engines. To use, simply spray the product on the surface to be cleaned, leave for a few minutes and rinse with plenty of water.

The appearance is a transparent violet liquid.

It is available in 22 kg and 4x5 kg sizes. With such a versatile presentation, it fits the needs of your business, meaning you will always have enough detergent for any cleaning task you need to perform.

DOSAGE AND USE INSTRUCTIONS

Dosage ranges from 10 to 50 g/l for low levels for dirt. For high dirt levels and engines, doses range from 50% to pure. The product is sprayed, left to work for several minutes and then rinsed with abundant water, preferably using high-pressure machines.

TECHNICAL DATA

Appearance Transparent purple liquid.

pH (1%) 10 +/- 1

MAIN COMPONENTS

Contains phosphates 5-15 %, cationic surfactants < 5 %, non-ionic surfactants 5-15 %. Alcohols, C12-14(even numbered), ethoxylated(5-15), Cocoalkyldimethylamine N-oxide.

PRESENTATION

22 kg, 4x5 kg.

USE OR HANDLING PRECAUTIONS

ANGER

DO NOT SWALLOW

H318 Causes serious eye damage.

H412 Harmful to aquatic life with long lasting effects.

P102 Keep out of reach of children.

P280F Wear protective gloves, clothing and eye protection. In case of inadequate ventilation wear respiratory protection.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
