Lubri ato

Colorless lubricating grease

DESCRIPTION

Lubri ato is a special long-life lubricant for chains, gears, cables and other elements that, due to their location, make it difficult to use conventional lubrication systems. Resists water and temperature (-20°C to 200°C). Prevents corrosion, reduces wear and lengthens the life of the gears. Thanks to the comfort and cleanliness of its application, Lubri ato completely replaces the laborious manual lubrication systems, reducing time and maintenance costs. Contains PTFE (teflon).

DOSAGE AND USE INSTRUCTIONS

Pre-clean the parts where the lubricant will be applied. Shake and spray on the area to be lubricated, start the machine for a few minutes to let the grease adhere well. Once the application is done, press for a few seconds with the container inverted to avoid the obstruction of the diffuser.
