Nippclean

Hygienizing foam for nipples.

DESCRIPTION

A specialised product designed for teat hygiene prior to milking. This unique foaming formula offers excellent cleaning and protection of the teat skin, thanks to its compact foam that prolongs the contact time.

It is easy and efficient to use. It is applied in its pure state using specific foam applicators. After applying the product, it is recommended to wait approximately 30 seconds before removing it before the milking process. This allows it to exert its cleaning and protective action effectively.

The appearance is a colourless cloudy liquid, and its pH ensures a mild and balanced action on the teat skin. Its main components work in synergy to provide effective and gentle cleansing.

The presentation is offered in 25 kg package, which ensures an adequate quantity for continuous use in the care and hygiene of animal teats. Nippclean is a reliable and effective option to ensure teat hygiene and teat health prior to milking. Its compact foam allows longer contact time, which enhances the cleaning action and protects the delicate teat skin.

DOSAGE AND USE INSTRUCTIONS

It is used with specific foam applicators. Wait 30 seconds and remove the product before milking.

TECHNICAL DATA

Appearance Cloudy colourless liquid.

pH 4.5 +/- 0.3

MAIN COMPONENTS

Contains chlorhexidine digluconate, surfactants and dermoprotectors.

PRESENTATION

25 kg.
