Power Gold

Liquid enzymatic detergent for self-service laundries.

DESCRIPTION

It is a highly effective enzymatic liquid detergent specially designed for self-service laundries. This powerful product guarantees optimal and efficient cleaning, removing organic matter embedded in all types of fabrics.

With its high surfactant content, it stands out for its ability to effectively degrease and disperse stains without damaging fabrics. Its enzymatic formula allows a deep action, ensuring impeccable results in every wash.

One of the advantages is its perfect combination with the Power Soft fabric softener. This synergy enhances the results, leaving a long-lasting and pleasant fragrance on the laundry after washing. With this, your customers can enjoy clean, soft and fresh-smelling clothes.

The recommended dosage varies between 5 and 10 grams per kilogram of dry clothes, depending on the degree of soiling. It is recommended to use a washing temperature of approximately 40 degrees Celsius for best results.

It is available in 20 kg, making it a convenient and cost-effective option for self-service laundries of any size.
