Supersol

Chlorinated powdered detergent for dishwashers

DESCRIPTION

Granular product suitable for washing dishware and glassware in hard water. Does not produce foam. Easily eliminates the most persistent grease and neutralises pigment stains. Thanks to its chlorine content, it deodorises and sanitizes the washed items and prevents the proliferation of bacteria inside the dishwasher. Its formulation enables it to work with water up to 45 °HF of hardness, preventing scale deposits in both the washed items and the machine. Also suitable for circuits in the food industry.

DOSAGE AND USE INSTRUCTIONS

Dosage ranges from 2 to 5 g/l, depending on water hardness, at a temperature of 55-60°C.
